## ANTONY PONCE

London [etc.] ; Toronto : Dent

"This book provides an engaging and intellectually challenging introduction to political ideologies, while at the same time giving an accessible route into the subject for those new to politics. Supported by an outstanding companion website, it has strong claims to be the best undergraduate textbook on ideologies on the market." Dr. Mike Gough, University of East Anglia

*Introduction to Political Theory* is a text for the 21st century. It shows students why an understanding of theory is crucial to an understanding of issues and events in a rapidly shifting global political landscape. Bringing together classic and contemporary political concepts and ideologies into one book, this new text introduces the major approaches to political issues that have shaped the modern world, and the ideas that form the currency of political debate. *Introduction to Political Theory* relates political ideas to political realities through effective use of examples and cases studies making theory lively, contentious and relevant. This thoroughly revised and updated second edition contains new chapters on global justice and political violence, as well as an expanded treatment of globalisation and the state. A wide range of pedagogical features helps to clarify, extend and apply students' understanding of the fundamental ideologies and concepts. This is comprised of:

- Case studies demonstrate how political ideas, concepts and issues manifest in the real world
- 'Focus' boxes encourage students to appreciate alternative viewpoints
- A range of thought provoking photographs challenge students to examine concepts from a different angle
- Suggestions for further reading and weblinks are also provided to help students to further their understanding

*Introduction to Political Theory* is accompanied by an innovative website with multiple choice questions,

biographies of key figures in political theory, further case studies and an innovative 'how to read' feature which helps students get to grips with difficult primary texts.

*An Introduction to Politics* Springer

This introduction to politics is designed for first-year students in social sciences and for the general reader interested in the basics of contemporary politics. The text's various sections and lecture summaries deal with the important areas of political science, different systems of democratic government, the fall of communism and post-communist politics, as well as issues in Caribbean politics such as globalization, constitutional reform and regional integration.

*People, Power, and Politics* NYU Press

Donald Lutz begins *A Preface to American Political Theory* by explaining what the book doesn't do. It doesn't begin with a panegyric to the American founding. It doesn't answer the following questions: "What are the basic principles in the U.S. Constitution? What were the intentions of the founders with respect to (fill in your own topic)? What is the meaning of pluralism, or separation of powers, or democracy, or (fill in your own concept)?" In short, it doesn't provide an overview of the content, development, or major conclusions of American political theory. What it does do is provide "a pre-theoretical analysis of how to go about studying questions like the ones above—how to conceptualize the project, how to proceed in looking for answers, how to avoid the logical traps peculiar to the study of American political theory." Lutz sets out to emancipate American political theorists from empiricism and inappropriate European theories and methodologies. The end result is to establish the foundation for the systematic study of American behavior, institutions, and ideas; to provide a general introduction to the study of American political theory; and to illustrate how textual analysis, history, empirical research, and analytic philosophy are all part of the enterprise. Designed for students and scholars in all disciplines,

including political science, history, and legal studies, *A Preface to American Political Theory* doesn't provide answers to central continuing issues in American political theory. Rather, it provides an effective, sophisticated entree into the study of American political theory. Readers will be armed with the intellectual tools to engage in systematic study and makes them aware of the pitfalls they will inevitably encounter.

**The History of Political Thought** Oxford University Press

This social work book is the first of its kind, describing practical steps that social workers can take to shape and influence both policy and politics. It prepares social workers and social work students to impact political action and subsequent policy, with a detailed real-world framework for turning ideas into concrete goals and strategies for effecting change. Tracing the roots of social work in response to systemic social inequality, it clearly relates the tenets of social work to the challenges and opportunities of modern social change. The book identifies the core domains of political social work, including engaging individuals and communities in voting, influencing policy agendas, and seeking and holding elected office. Chapters elaborate on the necessary skills for political social work, featuring discussion, examples, and critical thinking exercises in such vital areas as: Power, empowerment, and conflict: engaging effectively with power in political settings. Getting on the agenda: assessing the political context and developing political strategy. Planning the political intervention: advocacy and electoral campaigns. Empowering voters. Persuasive political communication. Budgeting and allocating resources. Evaluating political social work efforts. Making ethical decisions in political social work. *Political Social Work* is a potent reference for social work professionals, practitioners, and students seeking core political knowledge and skills to practically advance their work. For specialists and generalists alike, it solidifies political action as vital for the evolution of the field.

### **An Introduction to Political**

**Communication** Bloomsbury Academic  
For courses in Introduction to Political Science. Explore the Fundamentals of Political Science Political Science: An Introduction shows students how the fundamental tenets of political science have helped important leaders make critical decisions for centuries. The authors present a balance of theoretical abstractions and applied reasoning to help students understand how to make calm, rational choices when it comes to political manipulation. The Fourteenth Edition asks students to explore the controversial topic of exported democracy, and whether certain countries are ready and equipped to apply our form of government. By examining issues such as the Iraq war and the difficulty of adapting our own democracy in the U.S., the text prompts students to form their own opinions about democracy and political science. Geared toward those learning about the topic for the first time, the authors encourage students to consider different paradigms, viewpoints, and theories when developing their own political views. MyPoliSciLab® not included. Students, if MyPoliSciLab is a recommended/mandatory component of the course, please ask your instructor for the correct ISBN and course ID.

MyPoliSciLab should only be purchased when required by an instructor. Instructors, contact your Pearson representative for more information. MyPoliSciLab is an online homework, tutorial, and assessment product designed to personalize learning and improve results. With a wide range of interactive, engaging, and assignable activities, students are encouraged to actively learn and retain tough course concepts.

*Power and Choice* John Wiley & Sons  
A complete and accessible overview of how politics and economics collide in a global context This text surveys the theories, institutions, and relationships that characterize IPE and highlights them in a diverse range of regional and transnational issues. The bestseller in the field, Introduction to International Political Economy positions students to critically evaluate the global economy and to appreciate the personal impact of political, economic, and social forces.

### **An Introduction to Political Theory**

Pearson Higher Ed  
Over the course of the last century, political scientists have been moved by two principal purposes. First, they have sought to understand and explain political phenomena in a way that is both theoretically and empirically grounded. Second, they have analyzed matters of

enduring public interest, whether in terms of public policy and political action, fidelity between principle and practice in the organization and conduct of government, or the conditions of freedom, whether of citizens or of states. Many of the central advances made in the field have been prompted by a desire to improve both the quality and our understanding of political life. Nowhere is this tendency more apparent than in research on comparative politics and international relations, fields in which concerns for the public interest have stimulated various important insights. This volume systematically analyzes the major developments within the fields of comparative politics and international relations over the past three decades. Each chapter is composed of a core paper that addresses the major puzzles, conversations, and debates that have attended major areas of concern and inquiry within the discipline. These papers examine and evaluate the intellectual evolution and natural history of major areas of political inquiry and chart particularly promising trajectories, puzzles, and concerns for future work. Each core paper is accompanied by a set of shorter commentaries that engage the issues it takes up, thus contributing to an ongoing and lively dialogue among key figures in the field.

### *Political Concepts And Political Theories*

John Wiley & Sons

God is dead, but his presence lives on in politics. This is the problem of political theology: the way that theological ideas find their way into secular political institutions, particularly the sovereign state. In this intellectual tour-de-force, leading political theorist Saul Newman shows how political theology arose alongside secularism, and relates to the problem of legitimising power and authority in modernity. It is not about the power of religion so much as about the religion of power. Examining the current crisis of the liberal order, he argues that recent phenomena such as the rise of populism, the renewed demand for strong national sovereignty and the return of religious fundamentalism may be understood through this paradigm. He illustrates his argument through an exploration of themes such as sovereignty, democracy, economics, technology, ecological catastrophe, messianism and the future of radical politics, engaging with thinkers ranging from Schmitt and Hobbes to Stirner, Foucault, and Agamben. This book will be a crucial text for all students, scholars and general readers interested in the meaning and significance of political theology for political theory.

**Political Social Work** Cambridge University Press

This collection of 24 essays, written by eminent philosophers and political theorists, brings together fresh debates on some of the most fundamental questions in contemporary political philosophy, including human rights, equality, constitutionalism, the value of democracy, identity and political neutrality. Presents fresh debates on six of the fundamental questions in contemporary political philosophy. Each question is treated by a pair of opposing essays written by eminent scholars. Lively debate format sharply defines the issues, invites the reader to participate in the exchange of arguments and paves the way for further discussion. Will serve as an accessible introduction to the major topics in political philosophy, whilst also capturing the imagination of professional philosophers. Offers the unique opportunity to observe leading philosophers engaging in head-to-head debate.

Introduction to Political Philosophy

Cambridge University Press

Providing a comprehensive introduction to political philosophy, this 2006 book combines discussion of historical and contemporary figures, together with numerous real-life examples. It ranges over an unusually broad range of topics in the field, including the just distribution of wealth, both within countries and globally; the nature and justification of political authority; the meaning and significance of freedom; arguments for and against democratic rule; the problem of war; and the grounds for toleration in public life. It also offers an accessible, non-technical discussion of perfectionism, utilitarianism, theories of the social contract, and of recently popular forms of critical theory. Throughout, the book challenges readers to think critically about political arguments and institutions that they might otherwise take for granted. It will be a provocative text for any student of philosophy or political science.

*Introduction to Political Economy, 8th Ed*  
SAGE Publications Pvt. Limited

Harold J. Laski's *An Introduction to Politics* outlines the functions of the State institutions, while highlighting the problems between the State and society and politics in general. Without entering into any technicalities, the author discusses various topics, including the necessity of a government; the relationship between State and society; rights of an individual and the power of the State; liberty and equality; the nature of nationalism and law as a source of authority. This book was written with the purpose to make a layman reader understand what functions are

prerequisite for a democracy to function and how an individual can help in the effective running of a democracy.

Political Philosophy Policy Press

A precise, analytical and critical account of the fundamentals of political theory and the major concepts used in political analysis. This book offers an introduction to major political theories for the first learners of political science at the graduate level as well as those interested in building a strong groundwork of the subject. It cites Indian and global examples and discusses real-life applications of these theories to make the theories and concepts relatable and approachable. The book offers a compact overview of the concepts of state, society, civil society, justice, law, freedom, equality and others along with critical discussions on premier political ideologies of Marxism, Liberalism, Anarchism, Fascism, Gandhism and much more. Enriched by the author's long-term experience in research and teaching on the subject, this textbook will prove to be an essential companion for students of political science, sociology and social work as well as Civil Services aspirants. Key Features: • Special focus on Indian political theory and the course of its development. • Encourages the readers to ponder and debate further. • Presents a practical perspective, by contextualizing the theories within real-life situations.

*This Is Political Philosophy* Oxford University Press

In this provocative but balanced essay, Kenneth Minogue discusses the development of politics from the ancient world to the twentieth century. He prompts us to consider why political systems evolve, how politics offers both power and order in our society, whether democracy is always a good thing, and what future politics may have in the twenty-first century. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts,

analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Political Philosophy Routledge

In this book, an international group of public policy scholars revisit the stage of formulating policy solutions by investigating the basic political dimensions inherent to this critical phase of the policy process. The book focuses attention on how policy makers craft their policy proposals, match them with public problems, debate their feasibility to build coalitions and dispute their acceptability as serious contenders for government consideration. Based on international case studies, this book is an invitation to examine the uncertain and often indeterminate aspects of policy-making using qualitative analysis embedded in a political perspective.

Poli Sci Fi Cato Institute

This textbook provides a comprehensive introduction to the political systems of all ASEAN countries and Timor-Leste from a comparative perspective. It investigates the political institutions, actors and processes in eleven states, covering democracies as well as autocratic regimes. Each country study includes an analysis of the current system of governance, the party and electoral system, and an assessment of the state, its legal system and administrative bodies. Students of political science and regional studies will also learn about processes of democratic transition and autocratic persistence, as well as how civil society and the media influence the political culture in each country.

*The Political Formulation of Policy Solutions* Pearson Higher Ed

*History of Political Theory: An Introduction* is an engaging introduction to the main figures in the history of Western Political Theory and their most important works. The second volume traces the origin and development of liberal political theory, and so the foundations for contemporary views.

*Political Science* John Wiley & Sons

*An Introduction to Political Thought* emphasizes a dual approach to political theory by providing a chronological overview of both major figures and texts as well as an understanding of the development of key concepts and themes. In this way the authors provide a basic sense of the history and development of political thought and a critical grasp of the theoretical and philosophical issues at the heart of politics. Beginning with the idea that laws and constitutions are only beneficial insofar as they give effective expression to our moral and political

beliefs, the authors argue that moral and political ideas are the foundations of politics. Political philosophers covered in depth include: Plato, Aristotle, Hobbes, Locke, Rousseau, Marx, Bentham, Rawls,

and Burke. Key concepts such as the moral order, liberty, human nature, freedom, the social contract, distributive justice, liberalism, socialism, feminism,

human rights, and multiculturalism are also all covered. In exploring these issues the authors offer a critical guide through key arguments in the history of political thought and contemporary political theory.
